CITY: _____ STATE: _____ ZIP CODE: _____

MISSION:

The mission of the Texas Sealife Center is to

- Rescue, rehabilitate and provide supportive care to injured or stranded coastal and aquatic wildlife
- Successfully release wildlife back into their natural habitat
- Educate and promote public awareness in the conservation efforts to save wildlife

GOALS:

- **Rescue/Rehabilitate/Release Wildlife**
The number of wildlife that has been injured and presented to wildlife facilities has increased over the last decade and this trend is likely to continue. One of our goals at the Texas Sealife Center is to increase the capacity for hospitalizing injured wildlife until they are treated and healthy for release.
- **Education and Outreach**
Educating and informing the public is a vital component to achieving our goals at the Texas Sealife Center. Educational programs will target a wide range of audiences, including K-12, college and post graduate studies.
- **Conservation and Habitat Restoration**
The protection and restoration of the habitats used by wildlife is often a forgotten but critical component to wildlife rescue and rehabilitation that we recognize and actively support through various programs.
- **Research**
Texas Sealife Center collaborates with a number of universities and like-minded organizations to further research efforts on wildlife and the local ecosystems they inhabit. These collaborative efforts increase the reach and resources of the Texas Sealife Center.

FEES AND SERVICES:

The annual business membership fee is \$200.00 and is effective from January 1 until December 31 of each year. You will receive confirmation of your membership as well as a certificate and decal to display your support for our local wildlife. Membership also includes:

- Name of the business displayed in the Texas Sealife Center
- Annual email newsletter with business name listed
- Listing as a business member on our website
- Email notification of sea turtle releases (including select hatchling releases)
